## 200Mbps Powerline Ethernet Adapter, Pass Through

The new HomePlug AV adapter from Logilink provides extra convenience for your private home network with its integrated electrical socket and mains filter. The integrated electrical socket enables additional terminal devices or multiple sockets to be connected to the adapter just like to a normal wall socket. No power supply is lost. And the integrated filter significantly improves data transmission in the home network.

The PL0005 transmits bandwidth intensive data easily and securely over the existing electrical wiring – without installation effort. This adapter has a speed of 200 Mbps, thus ensuring maximum voice and video reproduction. TV and video images are received and displayed with absolute smoothness. Powerline Device is the best solution for no-new-wire networking in the house or office.
